

ABSTRACT OF THE DISCLOSURE

A magnetic decorative cover for metal office furniture. The cover is a lamination of a decorative layer to a magnetic sheet. The decorative layer is selected from a wide variety of materials to provide a desired appearance, to coordinate an office décor, or to blend office
5 furniture together. Suitable decorative materials include fabric, vinyl, leather, wood veneer, marker-board surface, and high-pressure laminate. In the preferred manufacturing method, the laminated materials are laser cut and/or die cut to provide crisp, sharp, non-raveling edges.
